PROFESSIONAL SUMMARY

Junior Full-Stack Developer focused on the MERN stack, with hands-on experience building responsive web applications and RESTful backend services. Skilled in React.js, JavaScript, Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT authentication, CRUD operations, and API integration. Experienced with reusable components, routing, forms, validation, database relationships, middleware, and error handling. Also have practical knowledge of On-Page and Off-Page SEO.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, JSX, React Hooks, React Router, Bootstrap, Responsive Design, DOM Manipulation

Backend: Node.js, Express.js, RESTful APIs, Controllers, Routes, Middleware, CRUD Operations, Error Handling, Authentication

Database: MongoDB, Mongoose, MongoDB Atlas, Schemas, Models, References/Populate, Database CRUD Operations

Authentication: JWT, bcrypt, Bearer Token Authentication, Role-Based Access Concepts

APIs & State: Fetch API, Async/Await, JSON, API Integration, Local Storage, Form Handling, Redux / Redux Toolkit

Tools: Git, GitHub, VS Code, npm, Vite, Chrome DevTools

SEO: On-Page SEO, Off-Page SEO, Keyword Research, Basic SEO Practices

SELECTED PROJECTS

MERN E-Commerce Backend API

- Built a Node.js and Express.js backend using MongoDB and Mongoose.
- Implemented RESTful CRUD APIs for products/clothes, categories, and users.
- Created controllers, routes, Mongoose models, validation middleware, database connection handling, and centralized error handling.
- Implemented user registration and login using bcrypt password hashing and JWT authentication.
- Used MongoDB references and Mongoose populate for category/product relationships.

React CRUD Application

- Built a CRUD application using React.js with Create, Read, Update, and Delete functionality.
- Used useState and useEffect for state and side-effect management.
- Implemented forms, input handling, validation, React Router navigation, and reusable components.

React & Next.js Projects

- Built responsive web applications using React.js and Next.js.
- Created reusable components and dynamic interfaces with routing, API integration, state management, and form handling.
- Integrated Supabase for database operations and application data.

JavaScript Projects

- Built interactive applications using Vanilla JavaScript, DOM manipulation, events, arrays, objects, and array methods.
- Used Fetch API, JSON, Local Storage, search, filtering, forms, and dynamic content.

PROFESSIONAL EXPERIENCE

SEO Intern — SEO Internship | Egypt

- Assisted with basic SEO tasks and website optimization.
- Worked with On-Page and Off-Page SEO, keyword research, and basic competitor research.

Customer Service Representative — Papa John's | Egypt | 1 Year

- Handled customer inquiries and orders professionally.
- Resolved customer issues while maintaining effective communication and teamwork.
- Worked efficiently in a fast-paced environment.

Assistant Chef — IKEA | Egypt | 6 Months

- Assisted with food preparation and daily kitchen operations.
- Followed hygiene and safety standards and worked effectively as part of a team.

Delivery Team Member — Bread Fast | Egypt | 6 Months

- Handled customer orders and deliveries.
- Managed time effectively and maintained professional communication and service quality.

EDUCATION

Future Academy — Faculty of Information Systems, Cairo, Egypt

LANGUAGES

Arabic: Native | English: Intermediate (B1–B2)

CORE STRENGTHS

Problem Solving • Debugging • Communication • Teamwork • Time Management • Fast Learning • Attention to Detail • Working Under Pressure

FULL-STACK FOCUS

Focused on building complete MERN applications from frontend to backend, including React interfaces, Express.js REST APIs, MongoDB databases, authentication, validation, middleware, and deployment-ready project structure.
